KHALID AL-MUTAIRI

Operations Director

khalid.mutairi@example.com | +966 55 000 0303 | Dammam, Saudi Arabia

EXECUTIVE PROFILE

Operations director with eighteen years in industrial manufacturing across the Eastern Province. Has led plants of up to 420 people, owns budgets above SAR 90 million and has delivered two successful ERP rollouts. Known for steady, safety-first leadership and for building plant managers who go on to run sites of their own.

SELECTED RESULTS

- Zero lost-time injuries for 26 consecutive months across three plants.
- SAR 14 million expansion delivered on schedule and within 3 percent of budget.
- Plant OEE raised from 61 to 74 percent at the Jubail site.
- Four internal promotions to plant manager in five years.
- Contractor maintenance cost down 11 percent through a three-year services agreement.
- ERP rollout across three plants with 60 trained super-users.

PROFESSIONAL EXPERIENCE

SAMPLE INDUSTRIAL GROUP

2018 to Present

Operations Director | Dammam

- Lead three plants and 420 staff with an annual operating budget of about SAR 90 million.
- Brought the lost-time injury rate to zero for 26 consecutive months across all sites.
- Sponsored the ERP rollout across all plants and trained 60 super-users.
- Promoted four plant managers from within over five years.
- Chair the monthly operations review with finance, HR and supply chain heads and report to the managing director.
- Negotiated a three-year maintenance services agreement that reduced contractor cost by 11 percent.

SAMPLE CHEMICALS MANUFACTURING

2013 to 2018

Plant Manager | Jubail

- Ran a 180-person plant producing for domestic and export customers.
- Raised overall equipment effectiveness from 61 to 74 percent through a lean programme.
- Cut energy cost per tonne by 9 percent with a maintenance and scheduling redesign.
- Managed relations with contractors, regulators and customer auditors.
- Introduced a competency matrix for operators and cut onboarding time for new hires from ten weeks to six.
- Ran the annual shutdown, completing 3 days ahead of plan with no recordable injuries.

SAMPLE PACKAGING INDUSTRIES

2008 to 2013

Production Manager | Dammam

- Managed three production lines and 90 operators across two shifts.
- Introduced daily management boards that halved unplanned downtime.

- Led the plant through ISO 9001 and ISO 14001 certification.
- Reduced scrap from 4.8 to 3.1 percent by tightening changeover and quality checks.

SAMPLE PLASTICS MANUFACTURING
2004 to 2008

Process Engineer | Dammam

- Optimised extrusion settings on two lines and increased output by 12 percent.
- Wrote standard operating procedures and trained operators on new equipment.
- Worked with maintenance to raise line availability to 91 percent.

SAMPLE PLASTICS MANUFACTURING
2002 to 2004

Graduate Engineer | Dammam

- Supported commissioning of two new extrusion lines and recorded start-up data.
- Prepared weekly production and downtime reports for the plant manager.
- Assisted the safety officer with monthly inspections and corrective action follow-up.

PROJECTS

- Capacity expansion, SAR 14 million: scope, budget and commissioning led end to end.
- ERP rollout: one system across three plants, live with no loss of production.
- Succession programme: development plans for 12 high-potential managers.

SKILLS AND LEADERSHIP

Plant leadership · P&L ownership · Lean manufacturing · Safety culture · ERP rollout · Capital projects · Union and workforce relations · Supplier strategy · Budgeting · Succession planning

EDUCATION

- MBA, Example Business School, Dhahran, 2012
- BEng Industrial Engineering, Example University of Petroleum, 2004
